SCANDINAVIA

NAV HISTORY

New impressions create new expressions. That's the way it has always been – and indeed still is.

Navs were Scandinavian journeymen who, from the 1200s, took their crafts abroad to familiarise themselves with other artisanal traditions and foreign cultures.

The experiences and skills thus acquired would then be adapted at home, so that the journeys would bring innovation to their crafts, as well as to society at large.

NAV SCANDINAVIA EMBODIES THE NAVS OF TODAY

NAV SCANDINAVIA

World Inspired – Home Founded. Our passion is to create contemporary home and living designs.

We go abroad to live, work and be inspired: impressions create expressions in a simple, aesthetic, functional style – rooted in our Scandinavian design history and cultural heritage.

Our ambition is to cultivate new innovative designers. Raw talent and openness to the world make our product portfolio broad and unpredictable.

DESIGN WITHOUT BORDERS IN MORE THAN ONE SENSE

NAV SCANDINAVIA PHILOSOPHY

We salute the navs. We, the founders of NAV Scandinavia, are modern navs ourselves. We have chosen to go abroad, in order to evolve professionally and personally. We find that on the journey opportunities arise, that would otherwise be missed.

The world's diversity is an endless source of inspiration. With open-mindedness, we embrace it. Our aim is to pass on this approach, to work and life, to the next generation of designers, thereby creating unique and inspiring designs.

WE OPEN THE WORLD TO YOUNG DESIGNERS

WONDER DRAGONFLY

Our first product is an excellent example of our brand concept: to be inspired by the world, and interpret that impression into a Scandinavian expression.

A Danish designer is fascinated by the delicate balance point of an Indonesian toy; a piece of local craftsmanship in wood is transformed into an elegant design in steel, with incredible detail.

A NEW CLASSIC

DO YOU HAVE DESIGN TALENT?

Walk in the footsteps of the navs. We offer talented and innovative designers the nav-approach to life and work.

NAV Scandinavia fully recognises the designer's contribution. Hence, we always make fair deals with our designers, including a NAV Stay in our Shanghai design studio, where you will have the chance to broaden your horizons, and get the experience of a lifetime.
